

## MATERIAL SAFETY DATA SHEET

# Banish 360 Weed Killer

### 1. IDENTIFICATION OF THE CHEMICAL PRODUCT AND COMPANY

<b>Product Name:</b>	Banish 360 Weed Killer
<b>Distributor:</b>	Agricrop Pty Ltd
<b>ABN:</b>	84 100 473 309
<b>Street Address:</b>	255 Port Road Hindmarsh, SA 5007
<b>Telephone:</b>	07 3348 4113
<b>Facsimile:</b>	07 3348 2702
<b>Emergency Telephone Number:</b>	1800 033 111 (all Hours)
<b>Substance:</b>	Amino Acid Derivative
<b>Chemical Family:</b>	Water solution of herbicide and surfactant. Glyphosate is N-phosphonomethyl glycine
<b>Product Use:</b>	Water soluble herbicide for non-selective control of many annual and perennial weeds.

### 2. COMPOSITION/INFORMATION ON INGREDIENTS

Chemical Entity	CAS No	Conc. %
Glyphosate, isopropylamine salt	38641-94-0	36
Surfactant	secret	5-15
Water	7732-18-5	to 100

This is a commercial product whose exact ratio of components may vary. Trace quantities of impurities are also likely.

### 3. HAZARDS IDENTIFICATION

<b>Hazard designation:</b>	Not classified as hazardous according to the criteria of NOHSC
<b>ADG classification:</b>	This product is not classified as a Dangerous Good under the Australian Code for the Transport of Dangerous Goods by Road and Rail
<b>SUSDP Classification:</b>	S5

### 4. FIRST AID MEASURES

<b>Ingestion:</b>	If swallowed do NOT induce vomiting; seek medical advice immediately and show this container or label or contact the Poisons Information Centre on 13 11 26 (Aust). Make every effort to prevent vomit from entering the lungs by careful placement of the patient. Do not give anything by mouth to a semi-conscious or unconscious person. Give a glass of water.
<b>Eye contact:</b>	If product in eyes, wash material from them with running water. If they begin watering or reddening, take special care in washing thoroughly
<b>Skin contact:</b>	If skin contact occurs, thoroughly wash contacted areas. No further measures should normally be required unless irritation is noticed. If irritation persists, seek medical attention.
<b>Inhalation:</b>	No first aid measures normally required. However, if vapours or mists have been inhaled, and irritation has developed, remove to fresh air and observe until recovered.
<b>Notes to physician:</b>	Treat symptomatically. Note the nature of this product.

# MATERIAL SAFETY DATA SHEET

## 5. FIRE-FIGHTING MEASURES

### Fire & Explosion Hazards:

The product is not flammable. If involved in a fire, use extinguishing agent suitable for the material on fire.

**Suitable extinguishing media:** Water spray, foam, dry chemical, carbon dioxide and/or any Class B extinguishing agent.

### Precautions for Firefighters and Special Protective Equipment:

When fighting fires involving significant quantities of this product, wear safety boots, non-flammable overalls, gloves, hat, goggles and respirator. All skin areas should be covered.

**Unusual Fire & Explosion Hazards:** This product, or spray solutions of this product, may react with galvanized steel or unlined steel (except stainless steel) containers and tanks, to produce hydrogen gas, which may form a highly combustible gas mixture.

**Hazards from combustion products:** Not combustible, however after evaporation of aqueous component residual material may burn. Product of combustion may include carbon dioxide, carbon monoxide, smoke and fumes.

## 6. ACCIDENTAL RELEASE MEASURES

**Spills & Disposal** Contain spill and absorb with clay, sand, soil or proprietary absorbent (such as vermiculite). Collect in sealed open top containers for disposal. Final clean-up with degreasing agent or detergent is advised.

### Environmental Precautions

Prevent from entering drains, waterways or sewers.

## 7. HANDLING AND STORAGE

**Handling:** Keep exposure to this product to a minimum, and minimise the quantities kept in work areas. Check Section 8 of this MSDS for details of personal protective measures, and make sure that these measures are followed.

No special storage and transport requirements. This product has no UN classification.

**Storage:** This product is a S5 Poison. Store in the closed, original container in a dry, well ventilated area out of direct sunlight. Keep container tightly sealed and do not store with seed, fertilisers or foodstuffs.

## 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

### National occupational exposure limits:

Exposure limits have not been established by NOHSC Australia for any of the significant ingredients in this product.

The ADI (Acceptable Daily Intake) for Glyphosate is set at 0.3mg/kg/day. The corresponding NOEL (No-observable-effect-level) is set at 30mg/kg/day.

### Engineering Controls:

Use good occupational work practice with adequate ventilation. Natural ventilation should be adequate under normal use conditions.

### Personal Protection:

**Respiratory Protection:** It is usually safe to not use a dust mask or respirator protection on account of this product. However, if the product is being used in dusty or confined conditions, use of a mask or respirator may be preferred.

**Protective Gloves:** Impermeable elbow length PVC gloves should be worn when you are using this product, to prevent irritation.

**Eye Protection:** When preparing product for use, wear face shield or goggles.

**Clothing:** When using controlled droplet applicator, wear protective waterproof clothing and impervious footwear.

After use and before eating, drinking or smoking, wash hands, arms and face thoroughly with soap and water. After each day's use, wash gloves, face shield and goggles.

# MATERIAL SAFETY DATA SHEET

## 9. PHYSICAL AND CHEMICAL PROPERTIES

<b>Appearance:</b>	Green coloured liquid
<b>Odour:</b>	Odourless to slight amine odour
<b>Boiling point:</b>	Approximately 100 °C at 100kPa
<b>Volatile materials:</b>	Water component. Active ingredient is considered non-volatile
<b>Vapour pressure:</b>	2.37 kPa at 20 °C (water vapour pressure)
<b>Flashpoint:</b>	Does not burn
<b>Specific gravity:</b>	1.17 approx
<b>Solubility in water:</b>	Completely soluble
<b>Flammability:</b>	Non combustible material
<b>Ignition Temperature:</b>	N/A
<b>Corrosiveness:</b>	Not corrosive
<b>pH:</b>	4.9 – 5.3

## 10. STABILITY AND REACTIVITY

**Reactivity:** This product is unlikely to react or decompose under normal storage conditions.

**Conditions to Avoid:** This product should be kept in a cool place, preferably below 30 °C.

**Incompatibilities:** Strong oxidising agents.

**Fire Decomposition:** If involved in a strong fire can release nitrogen oxides and oxides of phosphorus.

**Polymerization:** Hazardous polymerisation is not possible.

**Materials to Avoid** Corrosive to mild steel, galvanised and zinc.

Non corrosive to stainless steel, polyethylene and plastics.

Do not mix, store or apply the product or spray solutions of the product in galvanised steel or unlined steel (except stainless steel) containers or spray tanks.

**Hazardous Reaction** Avoid contact of the concentrate with strong alkalis and alkaline materials such as lime. Such contact may release isopropylamine vapour with a strong fish like odour, which is an irritant to eyes. Isopropylamine is moderately toxic, LD50 (oral, rat) is 820 mg/kg and a TLV of 5 ppm (TWA) has been set.

## 11. TOXICOLOGICAL INFORMATION

### Toxicology Information

No harmful effects are expected if the precautions on the label and this MSDS are followed.

**Inhalation** When applying the product as a spray avoid breathing in spray mists. May cause irritation to mucous membranes and respiratory tract.

**Ingestion** The concentrate is of low toxicity if swallowed. Amounts swallowed incidental to normal handling procedures and use are not expected to cause injury. Possible symptoms of exposure include: nausea, vomiting and gastrointestinal discomfort and diarrhoea. Ingestion of a large quantity of the undiluted product may result in hypotension and pulmonary oedema.

**Skin** The concentrated product may cause slight irritation on contact. Prolonged contact is likely to result in irritation.

**Skin Irritation** Slight irritant.

**Eye** The concentrate may cause irritation of the eyes. Prolonged contact with the concentrate may cause damage to the eye.

**Eye Irritation** Slight irritant

**Acute Toxicity - Oral** LD50 (rat) >5000 mg/kg for a similar product

**Acute Toxicity - Dermal**

LD50 (rabbit) >5000 mg/kg for a similar product

**Acute Toxicity - Inhalation**

LC50 (rat) (4hr) >1.3 mg/L

LC50 concentration not reached.

**Other Information** The Australian Acceptable Daily Intake (ADI) for glyphosate for a human is 0.3 mg/kg/day, set for the public for daily, lifetime exposure. This is based on the NOEL of 30 mg/kg/day, the level determined to show no effects during long term exposure for the most sensitive indicators and the most sensitive species. (Ref: Comm. Dept. of Health and Ageing, 'ADI List', TGA, August 2003).

# MATERIAL SAFETY DATA SHEET

## 12. ECOLOGICAL INFORMATION

### Environmental Fate:

**Breakdown in Soil:** Glyphosate is strongly adsorbed by soil and therefore becomes practically immobile. Microbial activity is the major cause of soil degradation with liberation of carbon dioxide. Half-life is typically 47 days.

**Breakdown in Water:** Glyphosate is strongly adsorbed to suspended organic and mineral matter and is broken down primarily by micro-organisms. The half-life in pond water ranges from 12 days to 10 weeks.

**Other Precautions** Do not spray in high winds. Do not contaminate dams, waterways or sewers with this product.

**Environ. Protection** Glyphosate is a non-selective contact herbicide. Spray drift can cause damage.

**Acute Toxicity - Fish** Not toxic to fish.

LC50 (96 hr) for rainbow trout is >989 mg/L

LC50 (96 hr) for carp is >895 mg/L

The above data is for the formulated product.

**Acute Toxicity – Other Organisms**

Birds: Not toxic to birds. LD50 for mallard ducks and bobwhite quail (diet) is >5620 mg/kg

Bees: Not toxic to bees. LD50 >100 µg/bee.

## 13. DISPOSAL CONSIDERATIONS

**Disposal:** Instructions concerning the disposal of this product and its containers are given on the product label. These should be carefully followed.

## 14. TRANSPORT INFORMATION

### Road and Rail Transport

Not classified as Dangerous Goods by the criteria of the Australian Dangerous Goods Code (ADG Code) for transport by Road and Rail.

### Marine Transport

Not classified as Dangerous Goods by the criteria of the International Maritime Dangerous Goods Code (IMDG Code) for transport by sea.

### Air Transport

Not classified as Dangerous Goods by the criteria of the International Air Transport Association (IATA) Dangerous Goods Regulations for transport by air.

It is good practice to separate this product from food, food related materials, animal feedstuffs, seed or fertilisers during transport.

**U.N. Number** None Allocated

**Proper Shipping Name** None Allocated

**DG Class** None Allocated

**Hazchem Code** None Allocated

**Packing Group** None Allocated

## 15. REGULATORY INFORMATION

**Poisons Schedule** S5

### Packaging & Labelling

CAUTION

KEEP OUT OF REACH OF CHILDREN

READ SAFETY DIRECTIONS BEFORE OPENING OR USING

**AICS (Australia)** All of the components in this product are listed on the Australian Inventory of Chemical Substances.

## 16. OTHER INFORMATION

All due care and skill, so far as practicable, has been applied in the preparation and collation of the information in this MSDS. Each user of the Product named in this MSDS should read and consider the information contained in this MSDS in the context of how the Product will be stored, handled, used or applied in the workplace. In all circumstances, it is the responsibility of the user of the Product to ensure that they have sought out the relevant safety data appropriate to their particular situation. Nothing contained in this MSDS shall be construed as a representation or recommendation to the user about the suitability or otherwise of the Product named in this MSDS for the user's particular situation. If the user requires any clarification or further information, the user should contact Agricrop.

**CONTACT POINT: Agricrop Pty Ltd  
255 Port Road, Hindmarsh, SA 5007**

Telephone: 07 3348 4113 - Facsimile: 07 3348 2702

**National Poisons Information Centre: Dial 13 11 26 (from anywhere in Australia)**

Please read all labels carefully before using product.
